The following table shows the results of the experiment. The data is presented in a table with columns for the different conditions and rows for the different variables. The table is rotated 90 degrees clockwise.

Condition	Variable 1	Variable 2	Variable 3
Control	1.2	0.8	0.5
Group 1	1.5	1.1	0.7
Group 2	1.8	1.4	1.0
Group 3	2.1	1.7	1.3
Group 4	2.4	2.0	1.6
Group 5	2.7	2.3	1.9
Group 6	3.0	2.6	2.2
Group 7	3.3	2.9	2.5
Group 8	3.6	3.2	2.8
Group 9	3.9	3.5	3.1
Group 10	4.2	3.8	3.4

The results show a clear trend of increasing values for all three variables across the different groups. The control group shows the lowest values, while the final group shows the highest values. The data is consistent and shows a strong positive correlation between the group number and the measured variables.
